

Composition and functions of the Advisory Committee

Composition of the Advisory Committee

The RHS department's advisory committee has been updated, and the list of new members was approved in the 5th Departmental Board Meeting on 17/04/1442H. The advisory committee members were selected based on their experience and relation to the department.

Functions of the Committee

- 1 - Submit proposals for everything that serves the future of the department.
- 2 - Providing ways to deepen the partnership between the department and the local and global community.
- 3 - Contribute to the development of programs and curricula in accordance with the requirements of the labor market.
- 4 - Contribute to the implementation of the college's strategic plan by facilitating departmental projects.
- 5 - Submit proposals that would provide material and moral support to the department.
- 6- Contribute to developing a coordination mechanism and establishing joint projects between the department and community sectors to find solutions to community problems in an integrated manner.
- 7- Suggest ways to provide funding sources for the department's development projects.
